

Aula 6.3

CSS Flexbox, Parte 1

A ideia por trás do layout flexível é dar ao container a **capacidade de alterar** a largura, altura, alinhamento e ordem de seus itens para preencher melhor o espaço disponível

```
<header>  
  <h1>Trybe</h1>  
  <h2>A escola que te ensina a programar, a aprender e atrabalhar.</h2>  
</header>
```

baseline

flex-wrap

Por padrão, itens flex
irão fazer seu layout em
1 linha. Essa
propriedade muda essa
definição

A decorative graphic in the top-left corner consisting of a purple square and a blue square. The blue square is larger and positioned below the purple square, with its right edge aligned with the left edge of the purple square.

O que vamos desenvolver hoje...

A decorative graphic on the right side of the slide consisting of two light green squares. The top square is smaller and positioned above the bottom square, which is larger and extends towards the bottom of the slide.
